

# **StraNexus** Apprentice Program

Management advisory firm

Multiple positions for students and graduates in **Industrial Engineering or related discipline!**

## **Currently Hiring: Senior Apprentice Consultants & Apprentice Consultants**

To find out more about these positions or to obtain your job application, please email us at [career@stranexus.com](mailto:career@stranexus.com) with your **name, phone #, expected graduation date/availability, year of study, program/specialization** and **university**.

### **What does StraNexus do?**

We are a Management Consulting firm with 3 core lines of businesses:

- Consulting in Industrial Engineering, Strategic Planning & Project Management
- Corporate training
- Financial advisory services

Our clients range in industry sectors including Utilities, Nuclear Power, Oil & Gas, Banking, Automotive, Manufacturing, Distribution, Not-for-profit, Retail, Document Management, Aviation, Municipalities, Financial Services, Food & Beverage, Transportation, Technology and Construction.

### **Criteria to apply:**

**Sr. Apprentice Consultant:** You are a recent graduate or are graduating in the summer of 2010 from an Industrial Engineering, Management or related discipline.

**Apprentice Consultant position:** You have completed at least 3 years of an Industrial Engineering or related discipline and are looking for a summer / internship position.

We are in search for the best-fit candidates to join our dynamic team of consultants. The StraNexus Apprentice Program is a high-intensity 16 week engagement which builds key capabilities in selected candidates, accelerates their career path, and acts as a testing platform for both yourself and StraNexus for a longer term relationship. The positions utilize Industrial Engineering principles like process analysis, systems design, project management, operations research, logistics, and simulation.
